

# CASA PLAYHOUSE

This child-friendly backyard cottage is a miniature version of the ones our grandparents built using plans ordered from Sears Roebuck and Co. Details that give it that warm and welcoming personality include durable vinyl siding, a front porch, gabled dormers, a loft and cheery window boxes. Interior walls are sheet-rocked and painted, and it also features electricity and vinyl flooring.

## What is **CASA**?

**CASA, Court Appointed Special Advocates, is a non-profit organization that trains community volunteers to advocate for the best interests of abused and neglected children in court.**

**Building Material by: Mead Lumber**

**Construction by: Roadhouse Renovations**

**Sponsored by: Ada Board of Realtors**
